HeatTrak Snow-Melting Mats!

Heating Mats Melt Snow... **HeatTrak's** electric heating mats plug into any standard 120V outlet and melt snow at a rate of 2 inches per hour. These Walkway Mats and Stair Mats are designed to interconnect with one another to cover any size area. With the mats' built-in watertight connectors, you can mix-and-match Walkway and Stair Mats to create the perfect snow-melting solution for their home. Each set of Heating Mats requires one GFCI Power Unit to connect the system to an electrical outlet. You can connect up to 15 amps on a single Power Unit; that's 5 Walkway Mats, 15 Stair Mats, or a combination thereof. You may also purchase a 20 Inch Cable Extender if additional cable length is needed between mats. All HeatTrak® products are waterproof and designed to be left outside for the entire winter season.

EVENTS by Superior

No more washing dishes, no more broken glasses, and no more china returns... enjoy the holidays with your loved ones, instead of tending to the dirty dishes. Our new line of elegant disposable tableware takes the work out of entertaining, leaving more time for fun, fun, and more fun. Too pretty to throw away, too inexpensive not to...but durable enough to wash and use again. You decide...

WNA elegant disposable tableware products are available for purchase and on display in the events showroom. WNA's durable disposable dinnerware alleviates all of the hassles of renting china and glassware (transportation, clean up, accidental disposal and breakage). This is no ordinary disposable line, by any means... WNA tableware and serving trays maintain an upscale look of porcelain and china...keeping your image intact. From banquet halls to the dining room in your home, you'll find that WNA and EVENTS by Superior has a presentation solution for everything you serve!
