

Superior is Now Your Complete Source For...

PAVERART

Imagine having a work of art to distinguish your home paver project. From walkway to pool deck and from patio to driveway, you'll be the talk of the neighborhood with a Paverart design.

New Product!

Create a beautiful and permanent attraction that will set your paver patio design apart from the ordinary. There are endless possibilities with Paverart's custom design capabilities.

Beautify the landscape of your home with brilliant, unique designs from Paverart. Call Superior today for more information and assistance.

Benefits Include:

Durability

- Compressive strength almost 3 times greater than poured concrete
- Paver pigmentation prevents colors from wearing off
- Resists cracking and freeze/thaw conditions

Versatility

- Quick and easy installation – no heavy construction equipment, curing time or special weather conditions required
- No maintenance or sealers required

Safety

- High slip resistance and rapid draining of water
- Pavers are cooler underfoot than concrete
- No dangerous materials or chemicals used during paver installation

Beauty

- "Endless possibilities in design" – limited only by your imagination
- Large selection of colors available or custom colors can be obtained
